Temko, S. V.
 QUANTUM KINETIC EQUATION FOR A MULTICOMPONENT PLASMA, tr. by R. P. Illwitzer. 27 Oct 60, Sp. 5 refs. APL/JHU TG 230-T160.
 Order from OTS 50.50 7 p12 61-11166

Trans. of Nauchnye Doklady Vysshay Shkoly. Fiziko-matematicheskiye Nauki (USSR) 1958, no. 2, p. 189-191.

An approximate quantum kinetic equation is derived for a multicomponent system of charged particles under the assumption that exchange interactions are weak. Under certain conditions the derived equation coincides with the quantum kinetic equation proposed by Bogolyubov and Gur'ov (Zhur. Eksptl. i Teoret. Fiz. 17: 614-628, 1947; available in translation from MDP as MDP B-154) or the kinetic equation given by Landau (Physik. Z. Sowjetunion 10: 154, 1936) or the Fokker-Planck equation for a multicomponent plasma (Zhur. Eksptl. i Teoret. Fiz. 31: 1021, 1956; this journal is translated cover to cover by APL). (See also 60-12509, 60-21595 (Physics-Theoretical, TT, v. 5, no. 11))
